Technical Specifications

	Roll Length	~ 40 m	
	Roll Width	140 cm (+/-2%)	
	Surface Composition	100% Polyester	
	Base Composition	100% Polyester	
	Weight m ² DIN EN 12127	380 g/m² (+/-5%)	
	Thickness +/- 2%	2,1 mm	
	Abrasion Test EN ISO 12947-1,2	>70.000	
	Pilling EN ISO 12945-2 (2.000T)	4-5	
	Tensile Strength EN ISO 13934-1	Warp: 4-5	Weft: 4-5
	Tear Growth Resistance EN ISO 13937-3	Warp: 95N	Weft: 50N
	Color Fastness to Light EN ISO 105-B02	4-4.5	
	Color Fastness to Rubbing EN ISO 105-X12	Dry: 4	Wet: 4

This product is fitted with **NewEver®** technology, which contains waterproof properties in its chemical and physical structure, so that you will enjoy a fabric that is easy to maintain and will last longer.

The analytical results are referred only to the sample tested. Discolouration and colour deviations tolerated by permissible industrial standards which do not constitute reasons for claim. We reserve the right to modify, at any moment and without notice any product specifications.

Vicortex

Clean and Care recommendations

Machine Wash

Do Not Use Bleach

Iron maximum 110°

Dry Cleaning

Drying to machine

Wash to machine, maximum 30°, do not use abrasive products or neutral detergents. Iron maximum at 110° and always in the back side. It admits dry clean.

We develop our articles by applying new technologies in the production process, so that this fabric is conscious of the environment and people's health.

TECHNOLOGY

This material is protected by NewEver[®] Max Technology, a simple cleaning treatment using a bit of water. You can get rid of most stains such as mud, ketchup, lipstick or plasticine. We recommend cleaning immediately after contact by soaking the stain with water and a paper towel. Do not rub it in. Do not use abrasive products that may damage the material of your sofa. We are not responsible for any damages caused by the inadequate use of the product.

Our Pet Friendly has a membrane layer between the loops of the fabric and upper part of the material that is resistant to accidental tearing caused, not only by pets, but also by zips, trouser rivets, etc... The surfaces of this collection are completely smooth, which makes it easier to remove any pet hair left behind. This material, developed by Vicortex[®], is not indestructible, but will help extend your sofa's life further.

This material is Child Friendly, perfect for family tranquillity, having been designed to respond to the demands of domestic use. It is resistant to high speed and friction thanks to its robust structure, with distinct abrasion points.

By taking adequate care of your fabric you will be able to keep it as good as new for longer. In accordance with this we ask that you take into account the following advice:

- Avoid having your new sofa exposed to direct sunlight
- Do not place your sofa close to heating, radiators, chimneys etc.
- Avoid having your sofa come into contact with coarse fabrics, as this may cause material transfers

Try to remove and eliminate dust and common dirt around the house with a low-power vacuum
